2019

Welcome!

*I am a natural light photographer;
a capturer of life;
a preserver of memories.*

I offer portrait sessions from my purpose built studio in Springfield (Qld 4300) and various outdoor locations around Brisbane and Ipswich.

Egg Photography is about capturing life's journey; from bump to baby and beyond. It's about embracing life, cherishing new beginnings and creating precious memories. Most important of all, it's about celebrating YOU and the special people with whom you are blessed to have accompany you on this journey of life.

*I am also a mother;
a lover a smiles;
a treasurer of moments.*

My family is my first love. My husband is my biggest supporter and my children Freddy & Thea are my inspiration. I look forward to introducing them to you one day.

I thank all my past & present clients for putting their trust in me and for inviting me into their families to capture their precious memories. To those of you thinking about booking my services, I look forward for the chance to capture your life's journey also.

- Hue (pronounced Hway)

YOUR INVESTMENT: What you need to know

As a photographer and a small business owner, I pride myself in providing the best possible service to my clients. This starts with an obligation free consultation to work out if I am the right prographer for you, and may end up with me in your living room, measuring up your walls so I can design the perfect display solution for your home.

Although I absolutely adore the versatility of digital files, I know you folks are busy and life just gets in the way. You have invested time and money into having your memories captured, don't let them sit on your USB and collect dust. Let me help you create something beautiful, so you can enjoy them every day. In addition to a stress free service, you are also guaranteed the highest quality of prints and products on the market, some with up to 75 years unconditional guarantees.

How It Works

Booking a session with me is pretty simple:

1. Initial contact via phone, email or in person consultation and session confirmation.
2. We conduct the photo session.
3. Then, approximately 2 weeks after our session, you are invited back to my studio for the image reveal.

At this stage, you would have seen my pricing and product offers and have an idea of what you are after already so all you need to do is fall in love with the images and place your order! I will be there to help with any design consultation requirements or questions. You can build your own collections with as little or as many products as you want. I will let the images speak for themselves and you can decide.

4. If purchasing a digital package, your images will be ready within 7-10 days of payment.
5. If purchasing prints, albums, canvases or other products, it will take approx 2-4 weeks from your order session to be ready.
6. Once ready, there are three delivery options: (1) You collect (2) I deliver (within 15kms of Springfield) or (3) You may choose for it to be couriered (a small additional fee will apply for this option).

Payment Details

To confirm your session, I require your session fee payment upfront. Then the balance of the payment will be due before your order is placed at the printers. If you require a Payment Plan, please let me know. I would love to be able to provide you with an amazing experience and gorgeous quality family portraits to treasure for always, while still working within your budget. I accept payment via Cash, Bank Transfer or PayPal.

CLIENT LOVE

Hue captured our newborn family photos beautifully! She is very professional and approachable (starting from our very first interaction via email). Hue was amazingly patient with us all esp my 11 day old son and pretty uncooperative 2 year old. We all felt relaxed and not rushed esp in between shots where I fed and settled bub. The end result was AMAZING! Hue presented us with incredible images and a slideshow that brought tears to our eyes! We have beautiful posed and natural shots of us all that we will proudly display and treasure forever. Thank you again Hue! We will be back again for sure!!!

- The Jeffrey family Xx

Thank you so much for such a perfect photo shoot, and so sorry for the belated thank you. Truly, I think these are the best pictures yet! Thank you so much for doing such an amazing job capturing our first family photo shoot. There are so many great shots I am hard pressed to find a favorite.

- Tran H.

Hue is amazing!! She was so patient with my restless newborn and fidgety boys (5 & 3) and still managed to get the most amazing photos. She also surprised me with the most beautiful slideshow of my prints. I would highly recommend her to anyone.

- Leah M.

Hue is amazing. Our little man was grumpy but Hue still managed to get some amazing photos of him and our entire family. Brilliantly captured family memories for us~thanks Hue! -

Katie G.

Can't recommend Hue enough! She is very patient and took her time with our little man. He was very fussy on the day of our photos but within the last 20 minutes Hue captured the most wonderful and precious photos of him. Thank you so much! - Sarah H.
